We offer life-changing opportunities for adults with developmental disabilities to belong to a safe, supportive community in which they can live, work and socialize.
Who We Are
The Mission Project is a nonprofit organization dedicated to enabling capable adults with developmental disabilities, such as autism and Down syndrome, to live full and satisfying lives. The Mission Project provides a safe, supportive community where participants have numerous opportunities for growth.

When people with developmental disabilities reach adulthood, there are fewer services for them. The Mission Project provides opportunities for them to live full lives in which they can thrive.

Mission Project participants enjoy living in their own apartments and socializing in their own community while being supported by parents, other family members, friends and dedicated professionals.

The Mission Project is situated in Mission, Kan., a safe community that has jobs, services, entertainment and a community center within walking distance of apartments.

What We Do
The Mission Project provides supports and programs to help our participants live safe and meaningful lives and to connect socially. Services include:

- Transportation to work and activities
- Weekly social skills group
- Instruction in daily living skills
- MPower Health, a program that helps them remain active and fit
- Programs to promote healthy eating
- Organized social and leisure activities
- Technology training (every participant has an iPad)
- Travel opportunities
- 24-hour Help Line

How You Can Help
The Mission Project is grateful for the support of individuals, families, companies and granting organizations who enable our participants to thrive in the Kansas City community. Here are ways you can help:

- **Donate**
  We offer one-time or recurring opportunities for financial contributions.

- **Attend an event**
  Each year we host a Kentucky Derby gala and a golf classic to raise money for our programs.

- **Volunteer**
  We always need volunteers at our events, and there are many opportunities to work with our participants in various programs.

Not just living – they are thriving!
